INDEPENDENT AUDITOR'S REPORT

**Board of Directors
Resources Legacy Fund
Sacramento, California**

We have audited the accompanying consolidated statements of financial position of Resources Legacy Fund and Resources Legacy Fund Foundation, collectively the Fund, as of December 31, 2009 and 2008, and the related consolidated statements of activities and of cash flows for the years then ended. These consolidated financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2009 and 2008, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

RESOURCES LEGACY FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

1. OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

Resources Legacy Fund is an independent, nonprofit organization that provides services to philanthropic institutions and individuals to achieve significant conservation goals. Pooling private contributions and leveraging public funding, Resources Legacy Fund designs and administers strategic land and marine conservation programs. The Fund makes grants, provides low-interest bridge financing, and enters into contracts for land acquisition, research, policy, outreach and education, capacity building, planning, and stewardship and restoration activities.

The accompanying financial statements reflect the consolidation of Resources Legacy Fund and Resources Legacy Fund Foundation (the Foundation). The Foundation is a nonprofit corporation established to support, perform essential services for, and to operate for the benefit of Resources Legacy Fund.

Resources Legacy Fund and the Foundation (collectively, the Fund) share common management and a majority of Directors. Material transactions between entities have been eliminated in consolidation.

Basis of presentation – The financial statements are presented in conformity with Accounting Standards Codification (ASC) 958-205, *Not-For-Profit Entities – Presentation of Financial Statements*. Under ASC 958-205, the Fund reports information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted. The Fund has no permanently restricted net assets.

Revenue recognition – Contributions, including grants and contracts obtained from private foundations and other nonprofit organizations, are recognized in full when received or unconditionally promised, in accordance with ASC 958-605, *Not-For-Profit Entities – Revenue Recognition*. If there are donor or grantor-imposed restrictions, the amount is initially reported as an increase in temporarily restricted net assets. When a restriction expires (generally, as payments are made to fulfill the purposes of the contribution), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Cash and equivalents – For financial statement purposes, the Fund considers all investments with a maturity at purchase of three months or less to be cash equivalents. Certain donors require the Fund to maintain separate cash accounts related to their grant funding.

Investments are stated at fair value. Changes in fair value and realized gains and losses are included in investment income.

Equipment and furniture are stated at cost and depreciated using the straight-line method over estimated useful lives of three to seven years. The Fund's policy is to capitalize such items with a cost of \$2,000 or more.

RESOURCES LEGACY FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Income taxes – Resources Legacy Fund, a publicly supported organization, and the Foundation are exempt from income taxes under Internal Revenue Code Section 501(c) (3). The Foundation is classified as a supporting organization of Resources Legacy Fund. The Fund has implemented ASC 740, *Accounting for Uncertainty in Income Taxes*, and has determined there is no material impact on the financial statements.

Functional allocation of expenses – The Fund accounts for its expenditures in the following categories:

Conservation program services – Expenditures related to a broad range of activities necessary to accomplish the Fund’s land and marine conservation programs. These include retaining a range of specialists to develop strategies, carry out policy and education activities, perform scientific research, and restore and monitor land, wetland and marine areas, as well as re-granting to nonprofit entities to carry out strategic planning, land acquisition, restoration and stewardship, capacity building, outreach, education and policy activities.

General and administrative – Expenditures related to building and maintaining an efficient business infrastructure, including oversight, business and financial management, governance, general recordkeeping, budgeting and all management and administration, except for that which is directly attributable to the conduct of conservation program services.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events have been reviewed through the issuance date of the audit report.

Recent accounting pronouncements – The Financial Accounting Standards Board (FASB) issued FASB Accounting Standards Codification effective for financial statements issued for interim and annual periods ending after September 15, 2009. The ASC is an aggregation of previously issued authoritative U.S. generally accepted accounting principles (GAAP) in one comprehensive set of guidance organized by subject area. In accordance with the ASC, references to previously issued accounting standards have been replaced by ASC references. Subsequent revisions to GAAP will be incorporated into the ASC through Accounting Standards Updates.

RESOURCES LEGACY FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Fair value measurements – Assets and liabilities measured at fair value are recorded in accordance with ASC 820, *Fair Value Measurements and Disclosures*, which clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 Inputs	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
Level 2 Inputs	Inputs other than quoted prices in active markets that are observable either directly or indirectly.
Level 3 Inputs	Unobservable inputs in which there is little or no market data, which requires management to develop their own assumptions.

2. INVESTMENTS

Investments consist of government and agency securities and are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Interest and investment income are as follows:

	<u>2009</u>	<u>2008</u>
Interest and dividends	\$ 495,939	\$ 2,340,547
Unrealized and realized gains (losses)	(83,806)	167,010
Investment fees	<u>(69,494)</u>	<u>(46,999)</u>
Total	<u>\$ 342,639</u>	<u>\$ 2,460,558</u>

3. CONTRIBUTIONS RECEIVABLE

The Fund initially records multi-year contributions receivable at fair value and subsequently amortizes them using the discount rate established in the initial fair value calculation. Multi-year contributions receivable are classified within Level 3 of the fair value hierarchy because determination of the present value of future cash flows is based on little or no market data and requires management to develop their own assumptions. Management determined fair value using a discount rate of 2.0% at December 31, 2009. The discount rate was obtained by taking their average interest rate earned on the Fund's investments during 2008.
